

SECONDARY WORKSHEET

1. Having watched the Kim Adams video, think about the way that Adams has addressed important and difficult issues. How is his approach the same as the other artists that he is inspired by? How is it different?
2. List some of the social or environmental issues that you see in the Bruegel-Bosch Bus.
3. How does the Bruegel-Bosch Bus reflect the community where you live? Do you think his feelings about cities are positive or negative? Use what you see in the installation to back up your ideas.
4. Is art a useful or effective way to communicate with people about important issues? Why or Why not?
5. Think about an important issue that you would like to share with the public. What kind of artwork would you make to communicate with others? It could be a poster, a painting, a sculpture, a performance. Write a description of your project, or make a sketch.
