# What is the AGH festival?

The Art Gallery of Hamilton (AGH) has delivered a successful annual Film Festival for the last 13 years; however, with the rise of two flourishing repertory cinemas in this city, alongside the Gallery's broadening interest in cultural disciplines beyond visual art, it was time to re-think the mission of this annual event.

This year, the AGH has intensified the regional resonance of its Festival offerings, expanding its focus beyond film to include **visual art, music, live performance, craft, and other genres**. AGH Festival 2022 focuses more deeply on spaces within the AGH to connect performance and social happenings to specific aspects of the exhibitions or collection items on display. In addition, the AGH Fest is hosting and co-presenting cinematic screenings and performance events at select venues throughout the city!

## FOUNDATION FOR THE ARTS

Providing funding in support of the visual and performing arts in Hamilton

### in-cite

*verb*

to stir, to encourage, or urge on to action

The INCITE Foundation for the Arts is a new non-profit organization formed to provide funding to charitable arts organizations in the Hamilton area.

Strong cultural institutions are essential for the economic development and quality of life in any community. Hamilton's major music, opera, art and theatre institutions as well as the dozens of smaller arts organizations need and deserve the support of our citizens.

The INCITE Foundation has been funded with generous seed money from private sources. It is hoped that this initiative will incite Hamiltonians to rise to the support of their cultural life.

*As the soil, however fertile it might be, cannot be productive without cultivation, so the mind without culture can never produce good fruit.*

AGH

Welcome to the new AGH Festival! This Festival builds on the tradition of the thirteen AGH Film Festivals which came before it, but adapts and innovates in order to deliver on the vital task of celebrating, showcasing, and offering culture, creativity, and the arts in Hamilton. This is a big step in the evolution of the Festival – expanding to focus beyond film to include visual art, music, live performance, literary and culinary experiences.

Join us in venues across the city, and at the Art Gallery of Hamilton for exciting, dynamic, sometimes intimate, sometimes extravagant experiences throughout the week. We are especially pleased that while tickets are for sale for specific events throughout the Festival, the AGH Galleries will be open free to the public throughout the event – all ten days of culture and creativity.

Thank you to the sponsors, community partners, and supporters, who have helped reimagine the AGH Festival and make it possible. We owe a special note of gratitude to BMO Financial Group, the AGH Festival's presenting sponsor and partner of the Festival for a decade. As well, we thank the Province of Ontario's Reconnect Festival and Event program, the Ontario Trillium Foundation Resilient Communities Fund, the Government of Canada, and the City of Hamilton for their tremendous and ongoing contributions. We are very grateful for this support.

Finally, congratulations to Jordan Delfs, AGH Lead of Festival Operations, whose vision and leadership has helped to make this new AGH Festival a reality. Together with the outstanding team of staff and volunteers, the AGH Festival is excited to engage with artists, and our communities.

Thank you for celebrating with us!

Shelley Falconer  
President and CEO  
Art Gallery of Hamilton

On behalf of all the members of BMO Financial Group, it is our great pleasure to welcome you to the first **AGH Festival: 10 Days of Arts & Culture** presented by BMO.

After an incredibly successful 13-year run focussing solely on the medium of film, the Festival has undergone a transformation into **AGH Festival** - ten days of events, happenings, pop-ups, and workshops representing visual art, media and film, performance, craft, and other creative genres in Hamilton.

BMO has been there from the beginning, first sponsoring the Festival in 2010 and becoming the presenting sponsor in 2012, and we're incredibly proud to continue our partnership with the AGH on this new journey to intensify the regional resonance of the Festival offerings.

BMO has always been a supporter of the arts in the communities where we all live and work. Since opening our doors in 1817, we've been investing in cultural events to help promote and foster creative talent, artistic excellence and cultural understanding.

We hope that you'll come and experience the many new activities AGH Fest has to offer with your friends and family. Enjoy what is sure to be an astounding and eye-opening 10 days, and the first of many Festivals to come.

## Gatherings: Roger Ferreira and Kareem-Anthony Ferreira

Hamilton-based father and son artists Roger Ferreira and Kareem-Anthony Ferreira join their practices to feature over 50 works in this major exhibition that highlights their many accomplishments.

Hailing from Trinidad, Roger and his family arrived in Hamilton in the late 1980s and he quickly established himself in the arts community. This show is a retrospective of Roger's 35-year career, exploring the major developments of his practice in print, painting and sculpture. Kareem-Anthony's emerging practice is debuted here in his first major Canadian exhibition. He studied at McMaster University before completing his MFA at the University of Arizona in 2020, and has met great success with international exhibitions. In his impressive large-scale oil paintings, he revisits memories of family trips to Trinidad. Eight large paintings are brought back to Hamilton, on loan from private collections across North America.

The title *Gatherings* reflects how the artists feel supported and inspired by their communities and families.

## The Bigger Picture: Art in Hamilton 1950-2000

This fall, the Art Gallery of Hamilton hosts a celebratory exhibition to recall the artists who contributed to the multifaceted explosion of the Hamilton art scene in the last half of the 20th century. Hamilton's strong sense of community and its ability to come together has been instrumental in the formation of the artistic landscape here. The exhibition includes works solicited during an open call resulting in a colossal group salon-style hang in the spirit of previous beloved collective Hamilton exhibitions such as the *NOW Show* (1986) and the *Go Show* (1991).

The exhibition is an outgrowth of the Building Cultural Legacies (BCL) project, presented by Hamilton Arts Council in 2019. BCL is a successor of the *Climbing the Cold White Peaks* project, organized by the Hamilton Artists Inc. in 1986 that chronicled Hamilton's art scene from 1910-1950.

## The Living Vault: The Collection and Performance

The AGH is particularly excited about the second iteration of our exhibition series that brings new and vital voices to bear on our permanent collection.

*The Living Vault* brings together six multi-disciplinary artists from a range of performance-based fields in collaborative pairs to create new works inspired by works from the #AGHCollection. Through the lens of theatre, dance, music, video, story-telling, and poetry, the exhibition serves in part as a metaphor suggesting a fresh strategy to critically and creatively activate the Gallery's collections.

## RBC Artist in Residence: Nathan Eugene Carson

Nathan Eugene Carson is the AGH's 2022 RBC Artist in Residence. Currently on view in the AGH Lobby, *Black Carnival Audience* foreshadows a massive installation of Carson's larger works on paper on Gallery Level 2 in the David Braley and Nancy Gordon Sculpture Atrium.

Carson remembers visiting the Carnival as a child and was always enthralled by the spectacle. He was curious about the uniqueness of those who populated the carnival and became aware of how the 'carnies' were perceived and understood through their differences and otherness.

Carson now explores difference in his mixed media works on paper, where he works intuitively to describe souls and how they might manifest physically. He acknowledges that how people look has an impact on how they are understood in the world. Carson presents these characters facing us, shifting the power dynamic and suggesting that they are all looking out at us. Their collective gaze is powerful, their shapes and forms diverse, and their vulnerability is turned outward and open for discussion.
